*Note: Even the best mohair has a tendency to shed a little. We suggest you drape a tea towel in your lap to catch the fibers as you work. Give it good shake before wearing.*

- Cast on:** Using cable cast-on method, cast on 20 sts; work sts firmly and close together to help keep the bottom edge from splaying.
- Ribbing:** Row 1: \*K1, P1\*; repeat between \* \* to end.  
Repeat Row 1 until you have just enough yarn left to bind off.
- Bind off:** Bind off all sts in pattern, working firmly.
- Finishing:** Weave in ends as invisibly as possible. Soak for 20 minutes in tepid water with no-rinse wool soap. Gently squeeze out as much water as possible. Roll up in towel and gently squeeze out more moisture, or place in a lingerie bag and run through spin-only cycle in washing machine. Lay flat without stretching; straighten edges. Allow to dry thoroughly. Give it a little shake!
